- Kannada

PROFILE

Machine learning engineer with 8 years of experience shipping recommendation, ranking and LLM-powered retrieval systems to production on AWS. Built and evaluated retrieval-augmented generation (RAG) assistants used by 2,000+ support agents.

EXPERIENCE

Senior Machine Learning Engineer 2022 - Present

Lumora Commerce, Bengaluru - *Online marketplace (e-commerce)*

- Leads a 4-person team building LLM-based retrieval and RAG assistants for customer support and product search.
- Cut assistant hallucination rate from 11% to 3% with a retrieval evaluation harness and reranking.
- Fine-tuned a 7B open-weight model with LoRA for catalogue attribute extraction.

Machine Learning Engineer 2020 - 2022

Lumora Commerce, Bengaluru - *Online marketplace (e-commerce)*

- Built and deployed product recommendation and ranking models serving 30M sessions a month.
- Moved model training to Kubernetes with MLflow tracking.

Data Scientist 2018 - 2020

Brightpath Lending, Bengaluru - *Digital lending startup (fintech)*

- Developed credit-risk scoring models for small-business loans using gradient boosting.
- Automated weekly model monitoring reports in SQL and Python.

EDUCATION

M.Tech, Computer Science
Western Ghats Institute of Technology, 2018

B.E., Information Science
Malnad College of Engineering Studies, 2016
