Siddharth Rao

Staff Machine Learning Engineer

PROFILE

Machine learning engineer with 13 years of experience in recommender systems and, since 2023, LLM and RAG systems. Holds a full-time staff role and, in parallel, a part-time consulting practice advising startups on RAG architecture.

EXPERIENCE

Staff Machine Learning Engineer 2021 - Present
Tejas Mobility, Hyderabad - *Ride-hailing platform (mobility)*

- Sets ML architecture for rider-driver matching across 30 cities.
- Leads the LLM support-assistant program: RAG over 50k policy documents, deflecting 35% of tickets.

ML Consultant 2023 - Present
Independent, Remote - *Part-time consulting practice (consulting)*

- Advises early-stage startups on RAG architecture and evaluation (part-time, alongside the staff role).

Senior Machine Learning Engineer 2018 - 2021
Tejas Mobility, Hyderabad - *Ride-hailing platform (mobility)*

- Built the TensorFlow ETA prediction and surge-pricing models.

Data Scientist 2013 - 2018
Arrowroot Analytics, Hyderabad - *Analytics consultancy (consulting)*

- Built recommender systems for retail clients on Spark.

EDUCATION

M.S., Computer Science
Godavari Institute of Science and Technology, 2013
